On August 19, 2019, Halie Lange filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*² (the “Vaccine Act”). Petitioner alleges that she suffered left shoulder injuries “resulting from adverse effects of a routine influenza vaccination she received on January 29, 2018.” Petition at 1. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On February 4, 2021, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent’s Rule 4(c) Report at 1. for a Shoulder Injury Related to Vaccine Administration (“SIRVA”).” *Id.* at 5. Additionally, Respondent determined that “Petitioner had no history of pain, inflammation or dysfunction in her left shoulder; her pain and reduced range of motion occurred within 48 hours of receipt of an intramuscular vaccination; her symptoms were limited to the shoulder in which the vaccine was administered; and no other condition or abnormality was identified to explain her initial symptoms.” *Id.* at 5-6. Respondent further agrees that “[t]he scope of damages to be awarded is limited to [P]etitioner’s SIRBA and its related sequelae.” *Id.* at 6.

In view of Respondent’s position and the evidence of record, I find that Petitioner is entitled to compensation.

IT IS SO ORDERED.
